Synch-Solutions Tops Off 10 Year Anniversary Celebration with a 2008 Local Minority Technology Firm of the Year Award

CHICAGO, Aug. 22 -- On Friday, August 15, John Sterling, Synch-Solutions' Founder and CEO, was honored at the Minority Enterprise Development (MED) Week gala and awards ceremony -- held at the Hyatt Regency Chicago -- as leader of the 2008 Local Minority Technology Firm of the Year. For 26 years, local and regional MED Week celebrations have been held throughout the United States, concluding with a National MED Week conference and White House ceremony honoring the achievements and contributions of minority entrepreneurs, as well as the individuals and organizations that support minority business development.

MED Week conferences, the largest federally sponsored initiatives held on behalf of Minority Business Enterprises, are managed by Regional Minority Development Agencies across the country and the MED Council. Synch-Solutions was honored by these organizations for its significant achievements and contributions to the business community.

Having been selected at the local level qualifies Synch-Solutions for future award considerations at regional and national levels. "We are so very proud of this distinction," says John Sterling, Synch-Solutions CEO, "and it has been awarded in such a special year for our company. In 2008, Synch-Solutions celebrated its 10 year anniversary." The company is headquartered in Chicago, Illinois, and has been steadily developing a national footprint.

About Synch-Solutions

Synch-Solutions is a management consulting and information technology solutions firm committed to elevating the value of clients in commercial, utility, K-12 and higher education, and government sectors. Services offered by Synch-Solutions include design and deployment of data warehouse and business intelligence applications; key business performance indicator planning and analysis; dashboard and scorecard development and implementation for operational and strategic monitoring, tracking and analysis of performance; Oracle/PeopleSoft and Oracle E-Business ERP implementations, optimizations and upgrades; technology modernization for organizations intending to take a phased approach to technology upgrades; business process and change management services; program and project management services; managed IT services; and a broad spectrum of technology infrastructure design and development solutions.

Synch-Solutions cultivates a culture of corporate citizenship, and company executives have a strong commitment to giving back to the communities in which they work. John Sterling serves on many non-profit boards, and the company commits time and resources to initiatives focused on improving the welfare of children and on economic development for minorities.
