Synch-Solutions Named to Inc. Magazine's 2010 Ranking of the Fastest Growing Companies in the United States

CHICAGO, Sept. 22 -- Synch-Solutions is proud to announce that it has been named to *Inc.* magazine's 2010 list of the 5,000 fastest growing companies in America. This is the second year in a row that the company has been named to the list. This honor reflects Synch-Solutions' commitment to grow – even in challenging economic times – as a leading provider of Information Technology services for organizations across multiple industry sectors. "With this accomplishment," states Jane Berentson, Editor of *Inc.* magazine, "Synch-Solutions joins the rarified company of enterprises who have appeared on the list multiple times, many of which have grown to become national icons."

"It is very exciting to make the Inc. 5000 again," said John Sterling, Founder and CEO of Synch-Solutions. "This accomplishment demonstrates the resilience of Synch-Solutions and our ability to deliver Information Technology solutions and services that create value for our client organizations and, in turn, for their customers. Through a challenging economic period, we have been successful not only in extending our offerings into the healthcare sector for the first time, but also in increasing our overall client base. I am proud of our staff, which has continued to deliver the organizational transformation, value creation and high standards that have always been central to our company's cultural identity."

Synch-Solutions is a national Information Technology services firm providing Business Intelligence Solutions, Enterprise Resource Planning Implementation and Upgrade Services, Hosted and Remotely Managed Information Technology Services, Enterprise Content Management Solutions, and Legacy System Modernizations. The company is headquartered in Chicago and maintains offices in New York City, Atlanta and New Orleans. Industries served include healthcare, education, government, utilities and commercial businesses.
